an enormous sum of the Baron's
recommendation (who is omnipotent at
the Palace, as well as in the studios) no
doubt clinched the thing in Beylaeus
opinion. The Baron too is evidently
excessively proud of the commission.

This time we gave the B. the full
choice of a person, without any reservation.
I said the money was only to be asked
for, on application with reference to
you. However all is well that ends
well, but I had no idea that the
charts would be prepared in such
a hurry, - I told my 7. you knew
6 months ago to give the half instal-
ment, when called for, (£ 75.) so that
ere this all that difficulty is settled.

through his letter never seems
to have reached the Baron. They had
not a shadow of authority for beginning
the work & it serves them right
to be a little suspicious. Breyhaeus is
I suppose like other German Professors
as good as a church mouse. & the
proffered extension of the original
requirement in size, text & number
of plates he no doubt thought an
irresistible bait. £150 ^{is a German} ~~is a German~~

doubt clinched the thing in Breyhaeus
opinion. The Baron too is evidently

Calcutta

After all, the thing once begun
the sooner it is out of hand the
better. What an extraordinary
deal of go, at his age & after
a life!

My father has sent the Rhododendron
book & is in a great way wth my
having sent no true plants, (or
few handfuls of rubbish only) & that
this is really too bad of Falconer
my best letter to whom must
procure some explanation.

My old Serb: "Clarence" writes that
he is very ill & cannot come back.

Falconer has procured me another
man of the name of J. D. de Cruz
who was to have left Calcutta on the
20th June; he was lately steward
of the Bombay Consul Military
Club.

Ever your affectionate etc

J. Hoole.

Write to me Campbell's saying
nothing about your health.

Mr. Dehal Chetty has
died is not by accident
that!
