

1845  
Distribution  
of Zool. stores  
skins & bones

London, February 5. 1845

The Trustees of the Leyden Museum  
(Paris &c.)  
Gentlemen

I have the honor to present to the Leyden Museum a series of specimens, illustrating the Zoology of Nepal Catalogues annexed.

X  
see over  
and adapt  
X

The specimens amount to five hundred & thirty six Birds and ~~sixty nine~~ <sup>seventy eight</sup> Mammals. In the Catalogues transmitted the whole of the Birds & Mammals discovered by me in Nepal are set down for the information of the Trustees and I may add that the complete series is deposited in the British Museum and amounts to

- Mammals of Nepal 126 species
- Mammals of Tibet 47 species
- Birds of Nepal & Tibet 657 species
- Frogs, Fishes, Snakes, & Tortoises 80 species

The species now presented to the Leyden Museum are transmitted through the obliging mediation of the British Museum, and are distinguished in the annexed Catalogues by a cross prefixed.
