

ZOOLOGICAL SOCIETY OF LONDON.

ZOOLOGICAL SOCIETY

OF LONDON

REPORT OF THE COUNCIL AND AUDITORS FOR 1956

Prepared for the Annual General Meeting, at 4 p.m. on Monday 29 April 1957

ZOOLOGICAL SOCIETY OF LONDON

The Society was founded in 1826 by Sir Stamford Raffles, Sir Humphry Davy, President of the Royal Society, and other eminent Naturalists,

for the advancement of Zoology and Animal Physiology, and for the introduction of new and curious subjects of the Animal Kingdom,

and was incorporated by Royal Charter in 1829. A supplementary Charter, extending and modifying the original Charter to meet modern needs, was granted in 1948.

The Society's Gardens in Regent's Park, which were first opened to the public in 1828, now cover an area of 35 acres. Of the original features and buildings designed by Decimus Burton, the Camel House with its clock tower, the Ravens' Aviary and part of the terrace leading from the Main Gate southwards are still in existence. In 1927 the Society acquired 500 acres of farm and down land at Whipsnade and has developed them into a Zoological Park where there is a minimum of housing and a maximum of open spaces for the animals. Part of the Park is used as a farm which produces much of the fodder for the animals both at Whipsnade and Regent's Park.

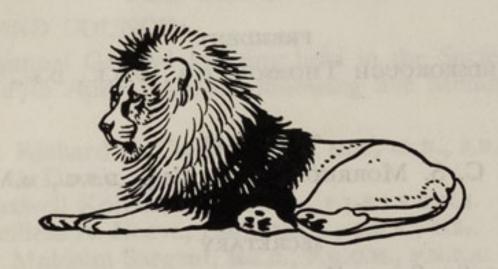

The Zoological Society of London, being primarily a scientific society, undertakes and encourages scientific research in zoology by members of its staff and by visiting scientists, and also by scientific expeditions overseas. Scientific Meetings, commencing at 5 p.m., are held in the Meeting Room on the second Tuesday in the months February to June and October to December. At these meetings the results of new research are communicated and discussed, and specimens and films of zoological interest are exhibited. The Society owns one of the finest zoological libraries in the world containing approximately 90,000 volumes including many complete runs of scientific journals.

The Proceedings, published eight times a year, in octavo, form the main organ of the Society for the publication of the papers read at the Scientific Meetings and also notices of all business transacted at these Meetings. The papers cover all fields of zoology and are fully illustrated with plates and text figures. The Transactions are published at irregular intervals, and contain such of the communications made to the Scientific Meetings as are better adapted for publication in quarto form by reason of the illustrations required.

The Zoological Record, a comprehensive bibliography of zoological literature with subject and systematic indices, is published annually by the Society; it is available either as a complete bound volume or separately in 19 parts dealing with the different animal groups. The Nomenclator Zoologicus contains the names of all the genera and subgenera in zoology from the 10th Edition of Linnaeus 1758 to the end of 1945, with a bibliographical reference to the original description of each. The work contains approximately 250,000 entries, and is published in 5 volumes.

ZOOLOGICAL SOCIETY

PETER M. SCOTT, ESQ., C.B.E., D.S.C.

IOLO A. WILLIAMS, ESQ.

PROFESSOR JOHN Z. YOUNG, M.A., F.R.S., Vice-President

ZOOLOGICAL SOCIETY OF LONDON

REPORT OF THE COUNCIL FOR 1956

The Council has pleasure in presenting its one hundred and twenty-eighth Annual Report to the Annual General Meeting of the Society, to be held on Monday, the 29th April 1957, at 4 p.m., in the Society's Offices in Regent's Park.

THE FELLOWSHIP

OFFICERS AND COUNCIL

At the Annual General Meeting held in the Society's Offices on Friday, the 27th April 1956, the following five Members of Council retired:

Dr. Richard C. Clarke, O.B.E., M.B., Ch.B., F.R.C.P.

V. G. Davey, Esq.

Maxwell Knight, Esq., O.B.E., F.L.S., F.R.M.S.

Sheffield A. Neave, Esq., C.M.G., O.B.E., D.Sc.

Sir Malcolm Sargent, Mus.D., F.R.C.M., F.R.S.A.

The following were elected as Members of Council to fill the five vacancies:

The Rt. Hon. The Viscount Chaplin, F.L.s.

Captain Cyril Diver, c.B., C.B.E.

Norman D. Riley, Esq., C.B.E.

Colonel Harry E. Roberts

Iolo A. Williams, Esq.

The Rt. Hon. The Earl of Mansfield, D.L., J.P., who had been appointed to fill the vacancy caused by the death of Mr. Alfred Ezra, o.B.E., was re-appointed.

ROLL OF FELLOWS

The number of Fellows at 31st December 1956 was 8,002 as compared with 7,885 at the end of 1955.

The following were elected Corresponding Members of the Society:

Mr. Walter E. Disney, Dr. Kenneth C. Searle, Mr. Eric J. Phillips.

OBITUARY

The Council regrets to report the death of a number of the Society's Fellows, among them:

The Right Honourable Lord Altrincham, P.C., K.C.M.G., K.C.V.O., D.S.O., M.C., who was a member of Council in 1946-47.

Professor W. G. Barnard, C.B.E., F.R.C.P., who was a member of Council from 1955 until his death.

Sir Harold Scott, K.C.M.G., M.D., F.R.C.P., who was Pathologist to the Society from 1925-28.

Mr. F. J. F. Barrington, M.S., F.R.C.S., a distinguished surgeon and a well-known field naturalist, who in his will bequeathed to the Society part of his library and a sum of £1,000.

Mr. Gerrit Smith Miller of the United States National Museum, Professor George Howard Parker of the Museum of Comparative Zoology at Harvard, and Dr. George B. Wislocki of the Harvard Medical School. These three distinguished zoologists were Foreign Fellows of the Society.

Dr. Sunder Lal Hora, of the Zoological Survey of India and Professor Dr. C. Wesenberg-Lund, formerly of the Zoological Museum Copenhagen, both Corresponding Members of the Society.

STAFF

PAY

ORGANISATION

DIPLOMA IN ANIMAL HUSBANDRY

Three major steps have been taken during the course of the year with the object of improving the employment prospects of staff engaged (a) on general menagerie work in Regent's Park and Whipsnade; (b) on works maintenance; (c) on gardening, and (d) in the Society's sanatorium, quarantine station, and laboratories. The first was a general rise in pay. The second was a complete regrading of the employees of the Society (other than Headquarters staff who are in a separate category) into a single scheme which provides greater incentives and greater opportunities of promotion. The third innovation was the institution of a course of instruction that will lead to a diploma in the care and management of menagerie animals. All three steps were warmly welcomed by the staff and, given that the last continues as well as it has begun, Council hopes that the Society's internal diploma will eventually receive the same recognition as the National diploma for animal technicians who work in laboratories. Those keepers who have served four years in that rank, and who are awarded the diploma, will immediately be promoted to the grade of Senior Keeper, the promotion carrying the appropriate increment in salary. The organisation of a diploma course reflects the fact that the maintenance of wild animals is becoming an increasingly scientific discipline. This new step is also in keeping with the better educational opportunities that are open to all young people today.

APPOINTMENTS AND RETIREMENTS

Apart from this general re-organisation of the staff (of which a list is given in Appendix I), the following changes occurred by appointment and retirement:—

Mr. R. N. Fiennes, M.A. (Cantab.), M.R.C.V.S., joined the staff on the 3rd September 1956 as Pathologist. He is responsible for the postmortem examination of animals that die in the Gardens, and will also carry out original research in animal pathology. Mr. Fiennes's previous appointment was that of Senior Lecturer in Animal Health and Veterinary Science in the University College of the Gold Coast, Achimota. Before that he had spent some twenty years in the Colonial Veterinary Service in Uganda and Kenya. He has published a number of papers on trypanosomiasis and has also worked on other protozoans, on helminths, bacteria and viruses.

Dr. Desmond Morris, B.Sc. (Birmingham), D.Phil. (Oxon) was appointed Head of the Television and Film Unit (see p. 8) in April 1956. Dr. Morris has published numerous papers on animal behaviour, in particular on the courtship of certain finches and on the reproductive behaviour of some freshwater fishes.

Mr. A. D. J. Gregory, Head Keeper of the Eastern Aviary, was promoted to the rank of Overseer and appointed Overseer of Birds.

Mr. G. R. Doubleday, who joined the staff in 1909, retired from the service of the Society on the 15th September 1956. In 1943 he was appointed Public Relations Officer. He had also been responsible for the management of the Children's Zoo, the Zoo Shop, and the Push Chairs. During the 1939–1945 war, he organised a number of special Utility Exhibitions.

Mr. E. B. Tanner, B.E.M., who joined the staff in 1908, retired from the Society's service on the 15th March 1956. He served for many years in the bird section of the Menagerie, being promoted Overseer in 1947. He was awarded the British Empire Medal in the Coronation Honours in 1953, and the Bronze Medal of the Society on the 15th February 1956.

Mr. Arthur Stanley Budd, who joined the staff in 1916, retired from the Society's service on the 16th July 1956. Mr. Budd served for many years in the Monkey House, and was awarded the Society's Bronze Medal on the 17th April 1940 for assiduous care in the rearing of anthropoids. He was appointed Keeper of the Primates on the 16th December 1945 and Overseer of Primates on the 23rd March 1954.

Mrs. Dorothy A. Pinto-Leite, a Silver Medallist of the Society, has retired from the post of Honorary Supervisor of the Apes' Nursery, and Council would like to take this opportunity of thanking her for many years of devoted service in the care of young apes in the Society's collection.

BRONZE MEDAL

The Bronze Medal of the Society was awarded to Overseer Edward Bradstock Tanner, B.E.M., on the 15th February 1956 for long and devoted services, 1908–56.

OBITUARY

The Council regrets to report the death of Mr. Basil William Mylward on the 30th March 1956, and of Mr. John Withers Lester on the 9th August 1956.

Mr. Mylward joined the staff in 1911 and was appointed Assistant Accountant in 1934.

Mr. Lester joined the staff as Curator of Reptiles in 1946, and became Curator of Reptiles and Insects on the retirement of Mr. L. C. Bushby in 1955. He played a large part in the stocking of the Reptile House after the war, and was awarded the Society's Silver Medal on the 16th November 1955 for outstanding services in leading a number of expeditions for collecting animals, in Sierra Leone 1948, 1950 and 1954, in the Gold Coast 1950, in Uganda 1952 and in British Guiana 1955.

VISITORS

The number of visitors to the Gardens at Regent's Park during 1956 was 1,948,046, compared with 2,078,460 in 1955. The number of visitors to the Aquarium during 1956 was 337,659, compared with 358,647 in 1955. The Children's Zoo was open from 26th March to 28th October 1956. The number of visitors was 243,086 compared with 288,540 in the previous season.

The declining trend in the number of visitors to Regent's Park was becoming obvious by the late spring of 1956, and intensified as the summer weather continued to deteriorate. A similar decline was experienced, almost without exception, by every other Zoological Garden in Great Britain; and also by a large number of Zoological Gardens on the Continent.

The average annual number of visitors to the Regent's Park Gardens over the past ten years has been approximately $2\frac{1}{4}$ millions; and the number has fallen below 2 million on only four of these years. 1956 had the wettest summer of the ten; indeed, from this point of view, it was almost a record for the past 75 years. On the other hand, 1953, one of the other three years when attendances fell below 2 millions, had the second lowest "total rainfall hours" for the past ten years. From this it seems improbable that fluctuations in the number of our visitors can ever be attributed solely to any single climatic factor.

An equally indecisive conclusion emerges when we consider the prevailing attractions of the Gardens at any given time. The peak of attendances in Regent's Park occurred in 1950, when just over three million visitors passed through our gates. The general amenities of the menagerie in that year were certainly not as good as they are today, and the main reason for the large gate was undoubtedly the polar bear known as Brumas, which was born in the Gardens.

The drawing power of "star turns" of this kind is, however, again unpredictable, as is indicated by the relative lack of response to the considerable publicity which was given in 1956 to a young Syrian bear known as Nikki which had been deposited in the Gardens by our Patron, Her Majesty the Queen. This bear had been presented to Her Royal Highness Princess Anne by Marshal N. A. Bulganin and Mr. N. S. Khrushchev on the occasion of their visit to England.

Quite apart from the popularity of particular animals and the vagaries of weather, another major factor which today influences the number of visitors to the Society's Gardens is the greater accessibility of attractions further afield due to the increase in motor transport.

Only an elaborate enquiry could therefore determine the extent to which the 1956 reduction in the number of visitors is to be attributed to bad weather.

The situation is being closely watched in the hopes that the element of unpredictability in the number of visitors to the Gardens can be reduced.

1956 closed with the introduction of petrol rationing. The effect of this measure on the numbers of visitors in 1957 will depend entirely on the duration of the fuel shortage. Whipsnade Park is bound to be more affected than Regent's Park, which depending on circumstances might not be adversely affected at all.

GATE RECEIPTS

In contrast to the number of visitors, gate receipts increased in 1956, in comparison with 1955, as a result of a decision taken to raise the price of admission to Regent's Park and Whipsnade to 3s. for adults and 1s. 6d. for children (excluding Mondays at Regent's Park, when the price of admission was set at 2s. for adults and 1s. for children). This change operated from the 1st March and was made because of the increased costs of maintaining the menagerie in Regent's and Whipsnade Parks.

It is worth noting that, in 1955-56, gate receipts accounted for some 60 per cent. of the total revenues of the Society as compared with 6.5 per cent. from subscriptions and other revenues derived from Fellows.

CATERING DEPARTMENT

The contribution of the catering profits to the total resources of the Society, amounting in 1954-55 only to some 6 per cent., has always been less than it might otherwise have been. We necessarily have to maintain during the winter months what is virtually a full restaurant service for a relatively small number of visitors during the shorter hours the Gardens are open. Certain economies and alterations in tariffs may help in offsetting this factor in future. Another cause of the relatively heavy overheads of our catering departments is that the Zoological Society, because of its recognised status as an educational charity, can operate its restaurant facilities only during the hours the menagerie is open to the public. In order to overcome this institutional difficulty, the Council has agreed to permit a company, known as Zoo Restaurants Ltd., to have access to the Society's premises as well as the use of the Society's catering equipment for the supply of refreshments during those hours when the menagerie is Subject to the usual statutory conditions, this company has also been appointed to operate the licensed bars that are normally available when the menagerie is open. The two shareholders of this company have made a deed transferring to the Society, as a gift, the dividends they may receive from the company, and on which tax, other than Profits Tax, can be recovered by the Society as an educational charity. It follows that the revenues of the Society should be augmented by the amount of the profit earned by Zoo Restaurants Ltd.

TELEVISION UNIT

Another innovation which will add to the Society's revenues has been the establishment, in association with Granada Television Ltd., of a television unit resident in the Society's Gardens. The Society's funds have not been used in this development, and the Society maintains a close liaison with Granada to ensure the quality of the programmes from the scientific point of view. The arrangement does not preclude any other television company, including the B.B.C., from using the programmes prepared by the resident Unit. It is gratifying to report that the first year's operations of the Unit have met with great success, and have attracted considerable public attention. One competition, which children were invited to enter, drew as many as 65,000 entries.

ECONOMICS OF PUBLICATIONS

Another measure that has been taken, partly in order to increase the speed of production of our scientific publications and partly in order to make them more economic, has been to issue two volumes a year, in changed format, in place of the one that has appeared hitherto.

As a result of this new policy eight parts of the *Proceedings*, instead of four, were issued during the year at a cost of £6,104. The net revenue during the year was, however, £907 better than that for the previous year.

REBUILDING AND DEVELOPMENT

The rebuilding and development of the Society's Gardens in Regent's Park, and the further development of Whipsnade Park, are entirely dependent on measures which strengthen existing sources of revenue, or which provide new sources of revenue, or which reduce the costs of our operations. In 1951 an ambitious plan for the rebuilding of the Gardens was announced. The implementation of this particular plan, which was the work of the Society's own Architect, has had to be deferred mainly because of the lack of sufficient resources. After reviewing the situation, Council has now commissioned Sir Hugh Casson, through the Royal College of Art, to prepare, in association with the Society's Architect, an alternative sketch plan for the rebuilding of the Regent's Park Gardens. The aim is to devise a master plan which, while controlling developments, will be more elastic in its operation in relation to the resources which the Society

might muster for the task. Our ultimate object is to transform our Gardens in such a way that the north end of Regent's Park becomes a major feature of London, both from the point of view of architecture and that of landscape, as well as the finest Zoological Garden in Europe.

NEW SANATORIUM PONY STABLES LECTURE HALL LIBRARY

The standstill on the 1951 development plan has not, however, affected building operations in Regent's Park. 1956 has seen the completion of the new Sanatorium and Quarantine Station. This is a development that sets a new standard in the care of menagerie animals. 1956 has also seen the completion of the new Pony Stables. Major changes have also been made in the Society's meeting room, the amenities of which have been improved at the same time as its seating capacity has been increased. The library has also been provided with new storage space for a further 30,000 volumes. The Aquarium roof is being reconstructed, and preparations are complete for the erection of two new lavatories and for major alterations to the premises of the old Prosectorium. The Works Section has also been heavily occupied with general maintenance work.

ZOOLOGICAL GARDENS, REGENT'S PARK

SPECIAL VISITS

His Excellency the Polish Ambassador and Madame Milnikiel, together with the Rt. Hon. The Earl of Radnor, K.C.V.O., Chairman of the Forestry Commissioners, and Sir Arthur Gosling, K.B.E., Director General of the Forestry Commission, as well as other officials, paid a visit to the Regent's Park Gardens on the 13th November 1956. The occasion marked the deposit in the Gardens of a pair of European Bison which had been presented by the Polish Government to the Forestry Commission.

The Hon. Sir T. Clifton Webb, K.C.M.G., Q.C., High Commissioner for New Zealand, visited the Gardens to inspect the Tuatara which had been presented by the Department of Internal Affairs of the Dominion of New Zealand.

OCCURRENCES OF SPECIAL INTEREST

After the presentation by the Society of a stock of Père David's Deer to the Zoological Society of China (see p. 11) Senior (now Head) Keeper T. W. Sangster brought back with him as a gift from the Zoological Society of China, one Mandarin Duck, two Chinese Alligators and a Giant Salamander, and at Singapore he added to his consignment six Tigers presented by His Highness The Sultan of

Johore and 3 Kuhl's Deer, the gift of Mr. R. A. Wright, M.R.C.V.S. Later in the year two young Tigers were presented by the 1st Battalion of the Royal Hampshire Regiment, and a further female Tiger by Mr. H. F. Meston. In addition to these presentations, the Tiger "Nepti", which has been in the collection since 1952, gave birth to a female cub in March and to a further two cubs in July.

The most notable births during the year have been a Saiga Antelope, a Kuhl's Deer, a Giraffe, a Mandrill, an American Bison and two King Penguins.

An unhappy event was the death of the Hippopotamus "Daisy". The post-mortem examination revealed a rubber ball lodged in her intestine. This is the second time that a hippopotamus in the Society's Gardens has been inadvertently killed by a member of the public.

AQUARIUM

Through the kindness of Mr. L. S. Mowbray, Curator of the Government Aquarium and Museum in Bermuda, the Society's Aquarium has received five specimens of the Green or Giant Moray Eel Gymnothorax funebris). These fish, together with six Albemarle Island Tortoises (Testudo vicina), were brought back in the care of Overseer F. C. Akhurst.

FLOWER GARDENS

The Rose Garden, formed in 1955, is now coming to maturity and the roses have been favourably noticed in the horticultural press. There are now some 200 varieties of dahlia in the Gardens, a feature in which many Fellows and members of the public have shown great interest.

Plants of the annual *Cleome spinosa*, a recent introduction, have been raised from seed and planted out in the border surrounding the Fellows' Lawn.

The collection of orchids purchased in 1955 is now well established in the greenhouses, and as the plants have come into flower they have been put on exhibition in the Tropical Bird House.

New plantings of flowering trees and shrubs have been made on the north side of the new Pony Stables, and collections of narcissus have been planted round the Budgerigar aviary and on the bank between the Old Tunnel and the Main Offices.

SUPPLIES OF FOOD, BEDDING AND EQUIPMENT

Over eighty different kinds of animal food totalling nearly 900 tons in weight have been handled by the Supplies Section, ranging from meat (100 tons) and hay (300 tons or the produce of 280 acres) to such delicacies as Malayan dried fly (100 lb.) which is used only for the rarer insectivorous birds.

The Supplies Section has also purchased and issued all bedding and litter, over 3,000 tools, in particular brooms and brushes, some

2,000 gallons of disinfectant, 1,300 tons of oil and hard boiler fuel and the uniforms and protective clothing used by the Society's staff.

ANIMALS AT REGENT'S PARK Animals of all kinds (except Fish and Invertebrates) on 1st January 3,298 Animals of all kinds (except Fish and Invertebrates) received in 1956 by presentation, exchange, deposit, purchase (and transferred from Whipsnade) 1,172 Animals of all kinds (except Fish and Invertebrates) born in the 315 Menagerie during 1956. 4,785 Animals of all kinds (except Fish and Invertebrates) dead, sold, sent in exchange or returned to depositors (and transferred to Whip-1,638 snade) during 1956 Animals of all kinds (except Fish and Invertebrates) in the Gardens on

WHIPSNADE PARK

3,147

VISITORS

31st December 1956

Attendances at Whipsnade Park in 1956 reflected the same general trend as was manifested at Regent's Park, the number being 549,305 as compared with 601,559 in 1955.

Their Royal Highnesses The Duke and Duchess of Gloucester, together with Prince Richard, visited the Park on the 3rd May 1956 and were received by the President of the Society.

Her Highness The Sultana of Johore also paid a visit to the Park.

The new Children's Zoo was opened to the public at Easter and during the year 107,488 visitors were admitted.

OCCURRENCES OF SPECIAL INTEREST

During the early part of the year the Society presented to the Zoological Society of China two pairs of Père David's Deer. These deer were moved from Whipsnade Park to Regent's Park and then travelled by ship to China, in the care of Head Keeper T. W. Sangster. The return of a stock of these deer to their native country, where they had been extinct for many years, has been much appreciated by Chinese zoologists.

Notable births in the Park during the year were one Mongolian Wild Horse, one Hippopotamus and two Collared Peccaries.

WORKS SECTION

The year was occupied with maintenance and renewal of existing buildings. In addition a new enclosure and shelter was completed for

Pigmy Hippopotamus and was occupied by a young male of this species in the middle of the season. Further progress was made with the renewal of the boundary fence of which 70 per cent. of the total of 8,350 yards has now been completed.

It is unfortunate that the opening of the new and splendid Children's Zoo, which was built to the design of our own architect, as well as other improvements and developments at Whipsnade Park, coincided with a general decline in attendance at Zoological Gardens throughout the country.

WHIPSNADE GREEN

The Society has purchased the soil of Whipsnade Green, the common land lying at the approaches to Whipsnade Park, and a Special Committee has been set up to advise on the preservation of its amenities.

FARM AND GARDEN

Among the supplies sent to Regent's Park were 19 tons of oats, 246 cwt. of potatoes, 210 cwt. green clover, lucerne, swedes and kale, and 600 day-old chicks. A small amount of venison and of prime Aberdeen-Angus beef was supplied to the Catering Departments at Regent's Park and Whipsnade.

From the Gardens at Whipsnade 12,550 wallflower plants were supplied to Regent's Park.

FATAL ACCIDENT AT WHIPSNADE PARK

On 31st May 1956 an accident, which proved fatal, occurred at Whipsnade Park. A ten-year-old boy, one of a party of Wolf Cubs, climbed over the outer barrier of the lion enclosure and, having slipped his arms between the bars, was seriously mauled. At the inquest, the Coroner recorded a verdict of Death by Misadventure.

Safety barriers or fences are erected around the cages or enclosures of all dangerous beasts to deter visitors from getting at the animals. Numerous notices are displayed to indicate that the animals are dangerous. Warnings are also posted both at the main gates, and in special places in Regent's Park and Whipsnade, to the effect that it is an offence under the Regulations of Sect. 17 of the Zoological Society of London Act of 1928, and one punishable on summary conviction, for a visitor to climb barriers, push his fingers between bars, or to do anything which brings him into closer touch with the animals than the menagerie arrangements intend. It is also an offence "to interfere with or tease" an animal, and any officer or servant of the Society may, after due warning, exclude or remove any person, whether he be a Fellow or a member of the general public, who infringes these regulations, or whose behaviour suggests that he is likely to do so. Hitherto, there has been only one prosecution under these powers.

The Society also has an internal regulation barring children under the age of 12 from entering or wandering round the menageries except under the supervision of an adult. Notices also make it clear that the Society does not hold itself liable for any hurt that comes to a visitor who infringes the rules.

Since the fatal accident at Whipsnade the number of warning notices has been considerably increased. Safety barriers and fences have also now been strengthened and made more effective in other ways, at the same time as a warning bell system has been introduced at Whipsnade Park. These things cannot be done without some cost to the visual amenities of our menageries.

In reporting this sad event, Council wishes to emphasise that no practicable safety barrier will ever deter someone who is determined to harm either himself or an animal. All that can be done is to maintain a continuous check in order to ensure that our security arrangements are always at a high pitch of efficiency, and in order to help prevent members of the public endangering themselves, even if the risk is their own.

A second accident which occurred at Regent's Park on 18th June 1956 also attracted considerable attention in the Press. On this occasion a mother lifted her child over the safety barrier in front of the monkey house and its hand was bitten by the Gorilla. The incident occurred within a few feet of a notice declaring that the animal was dangerous.

A special statement was issued to the Press after this incident in order to acquaint the public with the facts noted above.

MEETINGS AND LECTURES

Four Ordinary General Meetings were held during the year.

Eight Scientific Meetings were held during the year and these were well attended. The papers read have been published in the

Society's "Proceedings", and of the many interesting communications made the following may be specially noted: an account given by Dr. C. A. Knox of the oceanographic expedition to the Chatham Islands made in the s.s. "Alert" in January-February 1954; the report by Mr. Robert Clarke of the recovery intact of a giant squid, Architeuthis sp., from the stomach of a sperm whale; the description by Mr. Robert Clarke of successful attempts to mark whales from a helicopter; the presentation by Dr. Elwood C. Zimmerman of a series of excellent kodachrome slides taken by Dr. E. R. Ross of colourful insects in the Peruvian Amazon; the exhibition by Professor W. S. Bullough of a film, shown by courtesy of Professor Anton Bruun, taken by the Danish Deep-sea Galathea Expedition 1950-1952, showing the animal life of the deep sea; the address by Professor F. S. Bodenheimer on the primordial mammalian egg; an account by Professor H. Butler of Galago senegalensis and its habitat in the Nuba Mountains, Sudan; the description by Lord Richard Percy and Mr. M. W. Ridley of the Sooty Tern breeding colonies in the Seychelles; the presentation by Field-Marshal The Viscount Alanbrooke of his films entitled "Snipe" and "Red-necked Phalarope in South Uist", also of the film entitled "Wild Spain-an expedition to the Coto Donana", illustrating the birds of the Spanish Marismas; the description of the reproductive cycle in the badger, and its associated behaviour, by Mr. Ernest G. Neal, and a talk by Major Gavin Maxwell on the Marshes of southern Iraq. An outstanding contribution was made by Professor E. C. Amoroso, J. Austin, A. Goffin, and G. Langford on the natural history of the Marsupial Frog Gastrotheca marsupiatum.

CONFERENCES

The Society was represented by the Director at the celebration of the 25th Anniversary of the founding of the Zoological Gardens in Prague, from 28th September to 3rd October 1956.

The Society was represented at the 10th International Congress of Entomology, held in Montreal in August, by Mr. N. D. Riley, C.B.E.

The Society was represented at the 5th Meeting of the International Union for the Protection of Nature, held in Edinburgh in June, by Captain Keith F. T. Caldwell and Dr. H. Gwynne Vevers, M.B.E.

Mr. E. H. Tong attended the Annual Conference of the Directors of Zoological Societies of Great Britain and Ireland, held in Chester from 24th to 28th September.

CHRISTMAS LECTURES

Three lectures were given in the meeting room during the Christmas holidays for the children of Fellows and their friends. The lectures, illustrated with films, slides and living animals were, as in previous years, extremely popular and drew large attendances.

The children heard Dr. Desmond Morris, deputising for Mr. Maxwell Knight, o.B.E., who was indisposed, speak about some of his pet animals. The theme of the talk given by Dr. H. Gwynne Vevers, M.B.E., was "How Animals Feed", and Mr. David Attenborough showed and commented upon a film taken during the joint Zoological Society of London and B.B.C. Expedition to British Guiana, 1955.

LECTURE FOR L.C.C. SCHOOL CHILDREN

A lecture for L.C.C. Secondary school children was given on 30th December 1956 by Dr. H. Gwynne Vevers, M.B.E., on "How Animals Feed", and was illustrated with slides and living specimens. At the request of the L.C.C. this lecture was repeated on 4th January, 1957.

RESEARCH

PROSECTORIUM

During the year 944 necropsies were carried out on animals which died at Regent's Park—187 on mammals, 406 on birds, and 351 or reptiles and amphibians. At Whipsnade Mr. Martin Senior carried out 256 necropsies, 102 on mammals, 148 on birds, and 6 on reptiles.

Material from outside sources was also received for investigatior and this included some from other zoological gardens, including some in America.

Besides specimens preserved for use in the Prosectorium, a considerable amount of anatomical, physiological, biochemical and pathological material has been supplied to other institutions, and the results of research on it have appeared in a number of scientific publications.

PATHOLOGY LABORATORY

The new Pathology Laboratory was occupied during November, and from the end of 1956 the Pathologist has taken over post-mortem investigation of the animals which die in the Gardens at Regent's Park.

VISITING SCIENTISTS

During the year Dr. H. Fleishhacker of Shenley Hospital has worked in the Society's laboratories on a study of human and anthropoid cerebral fissural patterns with special reference to asymmetries, and Dr. R. Kanagasuntheram of Colombo has worked with the Prosector on the muscles of the hand in the Loris, and a paper on the results of this work has been accepted for publication in the *Proceedings*. The Prosector and Dr. Kanagasuntheram are also preparing an account of the genitalia of certain male gibbons.

RESEARCH STUDENTS

Miss O. J. Sidney, the investigator appointed by the Game Sub-Committee of the Tsetse Fly and Trypanosomiasis Committee of the

Colonial Office, has continued to make use of the accommodation provided in the Society's Library for research and consultation of the literature on African mammals. Her final report is in course of preparation.

The grant received from the Nature Conservancy for an investigation into the biology of the mole by Dr. G. K. Crowcroft was renewed for a final year, and she has produced some preliminary reports on the work. A final report is in course of preparation.

PUBLICATIONS

PROCEEDINGS

Two volumes of the *Proceedings*, each consisting of four parts, were published during the year.

Printed in a new face type, the two volumes contain contributions on a wide variety of zoological subjects, and attention may be drawn to the following: the three papers by R. F. Ewer on the fossil carnivores of the Transvaal caves; the lateral musculature and the swimming of fish by J. R. Nursall; studies on the life-history and ecology of the trematode genus Renicola Cohn, by C. A. Wright; observations on the venous system in certain Pinnipedia and Cetacea by R. J. Harrison and J. D. W. Tomlinson; the skull of Ictops and the classification of the Insectivora by P. M. Butler; the origin of nestcement in Edible-nest Swiftlets (Collocalia spp.) by A. J. Marshall and S. J. Folley; cranial crests in the Anthropoidea by E. H. Ashton and S. Zuckerman; reactions to shape in Octopus vulgaris Lamarck by B. B. Boycott and J. Z. Young; observations on the enteropneust. Protoglossus koehleri (Caullery and Mesnil) by C. Burdon-Jones; habits and movements of cave-dwelling bats in Devonshire by J. H. D. Hooper and W. M. Hooper; a revision of the genera Phaneroptera Serville and Nephoptera Uvarov (Orthoptera: Tettigoniidae), with conclusions of zoogeographical and evolutionary interest by D. R. Ragge; a contribution to the breeding biology of the Weaver-finch Quelea quelea (Linnaeus) in East Africa by H. J. de S. Disney and A. J. Marshall; the patterns of dermal bones in primitive vertebrates by F. R. Parrington; the breeding cycle of the Short-tailed Shearwater, Puffinus tenuirostris (Temminck), in relation to trans-equatorial migration and its environment by A. J. Marshall and D. L. Serventy,

TRANSACTIONS

The 28th volume of the series was completed with the issue on the 25th September 1956, as Part 7, of a paper by L. Harrison Matthews entitled "The sexual skin of the Gelada Baboon (Theropithecus gelada)".

NOMENCLATOR ZOOLOGICUS

The names of and bibliographical references to some 1,875 new genera and subgenera in zoology, published mainly in the literature for 1954, were incorporated into the file maintained in the Library.

able and may be obtained from Messrs. Gale & Polden Ltd., 28 Craven Street, London, W.C.2.

LIBRARY

The alterations to the meeting room and the construction of the basement book store were completed and some 20,000 volumes transferred from the main library to the mobile book stacks in the new store.

The library stock of periodicals and separate works is now estimated at 90,000 volumes, and its reprint collection at 8,200.

The number of library books lent to Fellows during the year was 3,083, and a further 678 volumes were lent to other scientific institutions.

The accessions to the library were 151 books and 4,743 parts of 763 periodicals.

The number of volumes bound was 985, and a further 205 were repaired.

Mr. F. J. F. Barrington, who had been a Fellow since 1920, bequeathed to the Society £1,000 for the maintenance or development of its library and a collection of 449 volumes of periodicals and separate works.

ACKNOWLEDGMENTS

The Society is indebted for gifts of specimens to: The Government Aquarium and Museum, Bermuda, the British Broadcasting Corporation (Television Service), the Cambridge Mlanje (Nyasaland) Expedition 1956, the Department of Internal Affairs and Northern Province of Canada, the Freshwater Biological Association, the Gough Island Scientific Survey, His Excellency Ismail Hakki, Mr. C. J. P. Ionides, C.M.Z.S., His Highness The Sultan of Johore, Dr. L. S. B. Leakey, C.M.Z.S., Mr. G. H. Newmark, Mr. J. R. Newmark, The Department of Internal Affairs of the Government of New Zealand, Mr. Eric J. Phillips, C.M.Z.S., Mr. Peter M. Scott, C.B.E., D.S.C., Dr. K. C. Searle, C.M.Z.S., Mrs. Daphne Seggar, Dr. F. J. Simmonds and Mr. R. A. Wright, M.R.C.V.S. In addition the following Zoological Societies have made valuable gifts or sent interesting animals to Regent's Park and Whipsnade on an exchange basis: The Royal Zoological Society of Antwerp, the Zoological Society of China, the Parc Zoologique de Clères, The Dudley Zoological Society Limited, the Paignton Zoological and Botanical Gardens, the Zoological Gardens, Prague, the Royal Zoological Society of Scotland. Complete lists of donors of animals to Regent's Park and to Whipsnade are contained in Appendices III (page 27) and VI (page 38).

Several collections of marine animals have been assembled and sent from Madeira by Senhora Hermione Blandy de Freitas Martins and Senhor João de Freitas Martins, c.m.z.s., who continue to take a lively interest in the Society's Aquarium.

During his journeys to and from Peking, the following were specially helpful to Senior (now Head) Keeper T. W. Sangster: Mr. Castro of Messrs. R. Loxley & Company Limited, Hong Kong, Mr. M. J. Henigan, M.R.C.v.s., of the Veterinary Department, Singapore, who made all the arrangements for the shipment of the Kuhl's Deer and procured hay, which was in short supply, for their journey, Mr. Barr-Sim of the Ben Line Steamers at Singapore, who procured meat for the tigers' journey to London, and Mr. R. Winn, Chief Officer of s.s. "Benmhor", who with three of his junior officers loaded the animals at Singapore after the dockers had refused to do it.

The following have rendered valuable assistance to the Society's Veterinary Officer in the field of animal health: The Royal Veterinary College, the Royal National Orthopaedic Hospital, Stanmore, the Institute of Orthopaedics, the Wellcome Foundation and the Pfizer Laboratories Limited.

The Society is grateful to the following for assistance at Whipsnade: Mr. J. E. Nigel Sloan, B.Sc., Parasitologist of the Cooper, McDougall & Robertson Field Research Station at Berkhamsted, for identification of parasites, Dr. H. D. Holt, M.R.C.S., L.R.C.P., D.P.H., Director of the Public Health Laboratory Service, Luton, for bacteriological investigation, and Dr. J. Brian Shaw, M.D., D.P.H., of the Luton Chest Clinic.

The Society's thanks are due to the following Ministries and Public Institutions for their assistance in a variety of ways: the Ministries of Agriculture, Fisheries and Food, Education, Fuel and Power, Health, Transport and Works, the Board of Trade, H.M. Customs & Excise, the British Museum (Natural History), the Royal Botanic Gardens, Kew, the Public Health Departments of the Corporation of the City of London, and of the Metropolitan Boroughs of Acton, Hampstead, Holborn, St. Marylebone and St. Pancras.

In the sphere of shipping and transport the following companies and corporations have given valuable co-operation: Air France, the American Express Company Incorporated, the Antwerp Steamship Company Limited, the Booker Line, the British European Airways Corporation, the British India Steam Navigation Company Limited, the British Overseas Airways Corporation, British Railways, Brown, Jenkinson & Company Limited, the Canadian Pacific Steamships Limited, Elder Dempster Lines Limited, Gray, Dawes & Company Limited, Hernu Peron & Stockwell Limited, Houlder Brothers & Company Limited, Killick Martin & Company Limited, the London Transport Executive, MacAndrews & Company Limited, Munro Transport, J. F. Obree & Son Limited, Pacific Steam Navigation Company, Pan American World Airways, the P. & O. Steam Navigation Company Limited, the Port Line Limited, the Royal Dutch Airlines,

the Royal Mail Lines Limited, Frank Strick & Company Limited, the Union-Castle Mail Steamship Company Limited, the United Shipping Company Limited and Mark Whitwill & Son Limited.

As in the past, the Society is grateful to the Rt. Hon. The Earl of Leicester for his kindness in providing evergreen oak for the giraffes.

It is also grateful to Virol Limited for valuable assistance.

FINANCE

Legacies

The following legacy was received during the year:—£1,000 from the late Frederick James Fitzmaurice Barrington, M.S., F.R.C.S., for the maintenance or development of the Library.

Income and Expenditure

- (a) REGENT'S PARK. The income was £325,437 (an increase of £28,352) and the expenditure amounted to £281,487 (an increase of £13,253).
- (b) Whipsnade Park. The income was £114,805 (an increase of £4,650), and the expenditure amounted to £105,412 (an increase of £13,692).
- (c) Surplus. The net surplus (after charging the cost of Pensions paid, and making appropriations to Funds to meet future liabilities) carried to the General Purposes Account, amounted to £7,209 as compared with £6,793 for 1955.

Assets, Liabilities and Balance

- (a) Assets. At the end of the year the total assets of the Society amounted to £1,202,324, a decrease of £2,500 on the corresponding figure for 1955.
- (b) LIABILITIES. The liabilities (including Pensions Fund and Depreciation of Investments Reserve Fund) amounted to £468,199, a decrease of £27,044 on the corresponding figure for 1955.
- (c) Balance. The balance, being the surplus of assets over liabilities, amounted to £734,125, an increase of £24,544 on the corresponding figure for 1955.

Signed (for the Council)
S. Zuckerman,
Secretary

20th March, 1957.

APPENDIX III.

LIST OF DONORS OF ANIMALS TO REGENT'S PARK

Acason, S., 1 Firemouth Cichlid

Addicott, Mr., 1 British Song Thrush

Agriculture, Fisheries & Food, The Ministry of, 3 European Squirrels, 1 Madiana Tree Frog

Ahn, P. M., 1 Bristly Squirrel

Alan Robertson Organisation, I Grey Fox

Allan, F. M., I Common Fire Finch, 2 Avadavat Finches, 2 Java Sparrows, 3 Common Waxbills, 5 Orange-cheeked Waxbills, I Golden-breasted Waxbill, I Crimson-eared Waxbill

Allen, E., I Flap-necked Chameleon

Anthill, Mrs. E., 1 Rough Terrapin

Antwerp, The Royal Zoological Society of, 2 L'hoest's Monkeys

Anwyl, W. Evan, I Taylor's Gecko

Archer, Mr., I Green Toad, I South American Yellow Toad

Attwell, T., 2 Armoured Zonures

Babonau, D., 1 Orange-cheeked Waxbill, 6 Goldfish

Backland, George, 2 American Black Snakes

Barkley, R., I Common Bream

Bassett, A., 2 Coucha Rats

Bassett, W., 1 Barbary Striped Mouse Belton, Master D. J., 2 Brazilian Tortoises

Bermuda, The Government Aquarium and Museum, 6 South Albemarle Tortoises, 5 Giant Green Moray Eels

Biddle, Miss, I Greek Tortoise Blacker, N. J., I Common Carp

Bloom, Miss Ann and Master Ronald, 2 Greek Tortoises

Boulton, Vivian, 2 Greek Tortoises Brignall, R. L., 1 Lar Gibbon

British Broadcasting Corporation, Television Service, 2 Orang Utans, 1 Indian Leopard Cat, 2 Masked Palm Civets, 2 Black-winged Grackles, 1 Turquoise Fairy Bluebird, 5 Blue-crowned Hanging Parrakeets, 1 Red-crested Wood Quail, 1 Bornean Fire-backed Pheasant, 1 Great House Gecko, 1 East Indian Chameleon Lizard, 1 Two-banded Monitor, 1 Indian Python, 1 Green Pit Viper.

British Overseas Airways Corporation, 18 Anemone-haunting Coral Fish

British Petroleum Company, 1 Horned Cerastes Viper

Broadley, D. C., 2 Wahlberg's Geckoes, 3 Bibron's Clawless Geckoes, 1 Flapnecked Chameleon, 2 African Blue-tailed Skinks, 1 Lizard (*Platysaurus* guttatus), 1 Boomslang, 1 Egyptian Cobra

Calvert, Captain P. R. C., 6 Coypu Rats

Cambridge Mlanje (Nyasaland) Expedition 1956, I Coucha Rat, 5 Large Pygmy Mice, 3 Nyasaland Striped Mice, 5 Tullberg's Rats, I Fat Mouse, 5 Aquiline Mice, I Flat-headed Short-tailed Chameleon

Canada, The Department of Internal Affairs and Northern Province, I Northern Lynx, 2 Big-horned Sheep

Cansdale, G. S., 10 Salmon (smolts)

Channing, Mrs., I Chestnut-breasted Finch, I Orange-cheeked Waxbill, I Silver-eared Mesia

Chaplin, J. P., 1 Flap-necked Chameleon

China, The Zoological Society of, 1 Mandarin Duck, 2 Chinese Alligators, 1 Giant Salamander

Clark, Mr., 1 Virginian Cardinal

Clères, Parc Zoologique de, 1 Mikado Pheasant Coates, Sir Clive Milnes-, 1 Common Teal

Cole, H. F., 1 Senegal Galago

Conran, Dr. O. F., 1 Chimpanzee

Cooke, Mrs. E. S., 2 Greek Tortoises

Cox, H. M., 1 Greek Tortoise

Crosthwaite, Mrs. Ivor, 1 Marmoset

Cumming, Mrs. A., I European Hare Customs, Her Majesty's, II Red-faced Lovebirds, 16 Fischer's Lovebirds

Day, J. W., 1 Sclater's Spot-nosed Monkey

Dean, Miss Monica, 1 European Pond Tortoise

Deutsch, J. A., 6 Polecat-Ferrets

Dockrell, B. C., I Black-cheeked White-nosed Monkey, 2 White-collared Mangabeys

Drain, Miss I., 1 Greek Tortoise

Dudley Zoological Society Limited, The, 1 Thick-tailed Dormouse

Elkan, Dr. E., 2 Common Asiatic Toads, 4 Marsh Frogs Elsmore, Major, 1 Donkey Emmens, Professor C. W., 12 Corroboree Frogs

Farris, G. W., 6 Californian Slender Salamanders, 2 Pacific Slender Salamanders, 2 Pacific Black Salamanders

Ferguson, J. D., 1 Red-necked Grebe

Fitzsimmons, Dr. W. M., 1 Bell's Hinged Tortoise, 1 African Python, 2 Common African Toads, 3 Braided Tree Frogs, 1 Pig Toad, 1 Speckled Pig Toad

Fox, Professor H. Munro, F.R.S., I Corkwing Wrasse Frampton, Mrs. Doris L., I Black-pencilled Marmoset

Freeman, R. B., 2 Common Waxbills

Freshwater Biological Association, 50 Windermere Char (Ennerdale form)

Friedman, The Misses Ulia and Nora, 2 Greek Tortoises

Funnell, J., 1 Cheetah

Gaillard, L., I Great Condor Gardiner, Dr. J. E., I Velvet Scoter

Garnham, J. M., 2 Peters's Pygmy Mongooses

Gates, R., I Pekin Robin

Gemmel, Mrs. Ann, 1 Canary Gibson, D. B., 4 Budgerigars

Gilbert, Miss V. J., 3 South American Ornate Terrapins

Gomme, Mrs. E. D., 1 Hooded Skunk Goodwin, D., 4 Ceylonese Necklace Doves

Goodwin, D., 4 Geylonese Rechade Bords Gough Island Scientific Survey, 10 Gough Island Buntings, 12 Gough Island Coots, 6 Antarctic Skuas, 12 Rock-hopper Penguins

Greenwood, Dr. P. H., 7 Heckel's African Lungfish

Gritt, A. E., I Spotted Flycatcher Grumball, T. H., I Silky Starling

Haddow, Dr. A. J., 1 Nisnas Monkey, 2 Grey-cheeked Mangabeys, 1 Bosman's Potto

Hakki, His Excellency Ismail, 2 Great Bustards, 3 Eastern Pin-tailed Sand Grouse, 1 Black-bellied Sand Grouse, 4 Persian Chukors

Hallums, A. R., 12 Guinea Pigs

Hamilton' Hamish, I West African House Snake, I Peters' Green Snake, I Herald Snake

Harrison, Professor R. G., M.A., M.D., 30 Madiana Tree Frogs

Harrods Limited, 1 Sooty Mangabey

Hawkins, Mrs. V., 1 Red-rumped Parrakeet

Hazel, G., 2 Budgerigars

Henic, Master M., I Spanish Terrapin, I European Pond Tortoise, 2 Pleurodele Newts

Hickling, Dr. C. F., c.M.G., I Grass Carp

Hills, Peter L., 2 Weasels

Hinton, Martin A. C., F.R.S., I Kestrel

Hipkin, J., 1 Lobster

Hodgman, Mr. and Mrs. S. F. J., 1 Common Seal

Hook, Raymond, c.m.z.s., 2 Puff Adders

Hook, Raymond, C.M.Z.S., and Seago, John, I Ground Hornbill

Horwood, M. T., 1 Hooded Vulture

House, F. H., 2 Cockatiels

Hunt, A. E., I Rabbit Hutchinson, Miss P., I Greek Tortoise Ilse, Dr. Dora, 1 Slender Loris
Ionides, C. J. P., C.M.Z.S., 3 Boomslang, 2 Storm's Water Cobras, 1 Black
Mamba, 2 Puff Adders
Irving, C. J., 1 Purple-headed Glossy Starling

Jay, Peter, 1 Greek Tortoise
Johore, His Highness the Sultan of, 4 Tigers
Jones, I. Ll., 1 Fox
Jones, L. W. R., 1 Green-cheeked Parrot
Jones, T. S., 1 Serval
Jordan, Mrs. H. D., 1 Crested Porcupine

Kay, N., I Cheetah
Kaye, Mrs. Susan, I Flap-necked Chameleon
Kelly, Gerrard F., I Petrie's Gecko, I Egyptian Changeable Lizard, 3 Bell's
Dabb Lizards, 2 Red-spotted Lizards
Knight, Maxwell, O.B.E., I Buzzard, I Argus Gecko
Knobel, Miss E. M., I Malabar Myna

Laloe, Mrs. J., I Lar Gibbon Leakey, Dr. L. S. B., c.m.z.s., 2 Worthington's Vipers, 3 Nothobranchius neumanni Leney, Maurice, I Brown Trout Lewis, D. A., I Flap-necked Chameleon Longhurst, Alan, I African Civet Cat, I African Woolly-necked Stork

McTurk, E., 2 Guiana Long-tailed Tree Rats, 8 Black-throated Cardinals Major, E., 1 Kestrel
Martinnant, A. E. B., 2 Fishing Cats
Maxwell, Miss B., 1 Budgerigar
Memery, Captain R. R., 1 Korin Gazelle
Meston, H. F., 1 Tiger
Miller, J. G., 1 Spider Crab, 1 Conger Eel
Mitchell, B. L., C.M.Z.S., 12 Tree Frogs (Hyperolius sp.)
Monighan, Mrs., 1 Barbary Ground Squirrel
Mountain, H., 1 Bronze-winged Mannikin

Neale, Bryan, 4 Guinea Pigs

Newmark, G. H., 1 Silvery Gibbon, 1 Black-winged Grackle, 1 Malaysian Black-naped Oriole, 2 Superb Tanagers, 3 Virginian Cardinals, 2 Redcrested Cardinals, 1 Chinese Jay Thrush, 1 Malachite-shouldered Fruitsucker, 1 Golden-fronted Barbet, 1 Two-banded Monitor, 2 Indian Wolf Snakes, 1 Painted Tree Snake, 1 Guenther's Bronze-backed Snake, 1 Emerald Tree Snake

Newmark, J. R., 2 Orange Weaver Birds, 2 Black-crested Finches, 3 Golden-

New Zealand, Department of Internal Affairs, 1 Tuatara Nicholl, J. H., 2 Flap-necked Chameleons

Oliver, F., 1 Tinsel Barb

Paignton Zoological and Botanical Garden Limited, 2 Maroon Tanagers Palmer, A., 8 Bridled House Geckoes, 1 Long-nosed Tree Snake Parton, Mr., 1 Lapwing Percival, Edwin, 1 Flap-necked Chameleon Pernice, Miss S. O., I Roloway Monkey Perrie, W. J., I Harlan's Horned Lizard

Perry, E. O., 1 Spanish Terrapin

Petter, Dr. F., 1 Ethiopian Hedgehog, 2 Persian Jirds, 2 Fat-tailed Gerbils

Phillips, Mr., 4 Blue Acara

Phillips, Eric J., c.m.z.s., I Broad-snouted Cayman, 4 Great Tegus, 2 Legless Lizards (Ophiodes striatus), I Snake (Thalerophis richardi marginatus), I Merrem's Boipeva Snake, I Merrem's Water Snake, I Reinhardt's Tree Snake, 3 Crossed Vipers, 2 South American Yellow Toads, I Giant Toad, 2 Frogs (Leptodactylus sp.)

Pilcher, Miss, 2 Green Singing Finches

Pocock, Mrs. M. E., 1 Yellow-fronted Parrot

Polkinghorne, A. S., 2 Goldfinches, 1 Canary, 1 Canary (White variety)

Poupart Limited, T. J., 1 Cenchoa Snake

Power, R. V., I Sooty Mangabey Prestwich, A. A., I Finsch's Conure

Rae, Mrs. B. R., 30 Budgerigars Rance, W. A., 1 Toque Monkey

Rata, Mrs., 1 Goat

Ray, Mrs. J., 1 Oriental Jackal Read, Miss, 1 Avadavat Finch

Richards, R. Astley, 2 Diamond Ground Doves

Riley, Mrs. B. M., 2 Fat Sand Rats

- I Emerald Tree Snake (1)

3 Puff Adders (1)

APPENDIX V.

LIST OF ANIMALS RECEIVED AT REGENT'S PARK

(Presented, Purchased, Received in Exchange, Deposited and Born in the Menagerie)

Mammals

Order Primates

- 14 Chimpanzees
- 2 Orang Utans
- 2 Lar Gibbons
- 1 Silvery Gibbon
- 1 Roloway Monkey
- 2 L'hoest's Monkeys
- I Black-cheeked White-nosed Monkey
- 2 Moustached Monkeys
- 1 Sclater's Spot-nosed Monkey
- 1 Nisnas Monkey
- 2 Sooty Mangabeys
- 2 White-collared Mangabeys
- 2 Grey-cheeked Mangabeys
- 1 Toque Monkey
- 2 Lion-tailed Monkeys
- 1 Olive Baboon
- 1 Mandrill
- 1 Humboldt's Saki Monkey
- 2 White-headed Saki Monkeys
- 1 Squirrel Monkey
- 1 Brown Capuchin Monkey

- 1 Marmoset
- 2 Black-pencilled Marmosets
- 1 Slender Loris
- I Bosman's Potto
- 1 Senegal Galago

Order Lipotyphla

- 1 Moon Rat
- 2 European Hedgehogs
- 1 Ethiopian Hedgehog

Order Carnivora

- 10 Tigers
- 1 Leopard
- 1 Jaguar
- 1 Northern Lynx
- 2 Servals
- 1 Indian Leopard Cat
- 2 Fishing Cats
- 1 Clouded Leopard
- 1 Ocelot
- 3 Cheetahs
- 1 African Civet Cat

- 2 Masked Palm Civets
 1 Marsh Mongoose
 2 Peters's Pygmy Mongooses
- 5 Mexican Hairless Dogs
- 4 Dingoes
- i Oriental Jackal
- 1 Fox
- 1 Grey Fox
- 2 Maned Wolves
- 1 European Otter
- 2 Weasels
- 6 Polecat-Ferrets
- 2 Hooded Skunks
- 1 Cacomistle
- 2 Crab-eating Raccoons
- 1 Ring-tailed Coati
- 2 Syrian × Brown Bears
- 1 Syrian Bear

Order Pinnipedia

- I Californian Sea Lion
- I Common Seal

Order Rodentia

- 1 Hodgson's Flying Squirrel
- 3 European Squirrels
- 1 Barbary Ground Squirrel
- 1 Bristly Squirrel
- 1 Garden Dormouse
- 1 Thick-tailed Dormouse
- 4 Spurrell's Dormice
- 2 Cotton Rats
- 14 Golden Hamsters
- 4 Golden Hamsters (White variety)
- 1 Red Marsh Rat
- 5 Nilgiri Long-tailed Tree Mice
- 2 Guiana Long-tailed Tree Rats
- 5 Savannah Rats
- 3 Coucha Rats
- 1 African Tree Rat
- 7 East African Tree Rats
- 5 Large Pygmy Mice
- 1 Barbary Striped Mouse
- 3 Nyasaland Striped Mice
- I Cape Pouched Rat
- 5 Tullberg's Rats
- I Fat Mouse
- 5 Kenya Spiny Mice (Acomys sp.)
- 4 North African Long-tailed Field Mice
- 5 Aquiline Mice
- 9 East African Speckled Harshfurred Rats

- 2 East African Gerbils (Tatera sp.)
- 3 Gerbils (unidentified)
- 2 Persian Jirds
- 2 Fat-tailed Gerbils
- 2 Fat Sand Rats
- 4 Greater Egyptian Jerboas
- I Crested Porcupine
- 3 Brazilian Tree Porcupines
- 6 Coypu Rats
- 2 Variegated Agoutis
- 4 Chinchillas
- 56 Guinea Pigs

Order Lagomorpha

- 3 European Hares
- 2 Rabbits

Order Perissodactyla

1 Donkey

Order Artiodactyla

- 2 European Bison
- 1 American Bison
- 30 Domestic Sheep
- 2 Big-horned Sheep
- 5 Mouflon
- 4 Barbary Wild Sheep
- 34 Goats
 - 1 Kongoni
- 4 Blesbok
- 3 White-bearded Gnu
- 1 Northern Waterbuck
- 2 Impala
- 2 Saiga Antelopes
- 1 Korin Gazelle
- 1 Gerenuk
- 1 Giraffe
- 1 Reticulated Giraffe
- 1 Fallow Deer
- 4 Kuhl's Deer
- 1 Llama
- 6 Guanacoes
- 2 Alpacas
- 1 Vicuna

Order Marsupialia

- 1 Bennett's Wallaby
- I Nine-banded Armadillo
- 1 Dark Rat Kangaroo
- 7 Rat-tailed Opossums

Order Passeriformes

- 1 Jackdaw
- 1 Jay

ATTENDED TO STREET

- 4 Satin Bower Birds
- I Silky Starling
- 1 Malabar Myna
- 2 Golden-crested Mynas
- 1 Black-necked Grackle
- 3 Black-winged Grackles
- 1 Southern Hill Myna
- 1 Purple-headed Glossy Starling
- 1 Malaysian Black-naped Oriole
- 1 Great Green Cacique
- 2 Glossy Cowbirds
- 2 Golden-headed Marsh Birds
- 2 Yellow-crowned Troupials
- 2 Orange Weaver Birds
- 12 Napoleon Weaver Birds
- 6 Red-headed Weaver Birds
- 13 Bronze-winged Mannikins
- I Common Fire Finch
- I Cut-throat Finch
- 2 Zebra Finches
- 3 Avadavat Finches
- 2 Java Sparrows
- Three-coloured Mannikin
- Chestnut-breasted Finches
- 1 Nutmeg Finch
- Striated Finches
- Cherry Finches
- 4 Long-tailed Grass Finches
- 2 Parson Finches
- Gouldian Finches
- Common Waxbills
- 7 Orange-cheeked Waxbills
- I Golden-breasted Waxbill
- Crimson-eared Waxbill
- 3 Violet Tanagers
- Superb Tanagers
- 1 Blue Tanager
- 2 Maroon Tanagers
- Magpie Tanager
- 1 Yellow-winged Sugar Bird
- Eastern Greenfinches
- 5 Virginian Cardinals
- 3 Goldfinches
- 9 Canaries
- 2 Canaries (White variety)
- 2 Green Singing Finches
- 10 Gough Island Buntings
- 2 Black-crested Finches 2 Red-crested Cardinals
- 8 Black-throated Cardinals
- 3 Golden-winged Sunbirds
- 1 Cape Sugar Bird

- 1 Chinese Grey-backed Tit
- I Chinese Rufous-backed Shrike
- 1 Japanese Red-tailed Shrike
- 5 British Song Thrushes
- I Grey Thrush
- I Blue Whistling Thrush
- 1 Ruby-throated Warbler
- Chinese Dial Bird
- Indian Shama
- 1 Noisy Robin Chat
- Lanceolated Babbler
- Melodious Jay Thrush
- 2 Kansu Babblers
- 1 Chinese Jay Thrush
- White-browed Laughing Thrush
- 2 Masked Jay Thrushes
- r Pekin Robin
- 1 Silver-eared Mesia
- 3 Fohkein Grey-headed Crow-
- I Malachite-shouldered Fruitsucker
- 1 Turquoise Fairy Bluebird
- Spotted Flycatcher
- 2 Hainan Blue Flycatchers
- 2 Narcissus Flycatchers
- 2 Japanese Blue Flycatchers
- 2 Sulphury Tyrants

Order Piciformes

- 2 Chestnut-eared Aracaris
- I Golden-fronted Barbet
- 2 Chinese Pied Woodpeckers
- 1 British Green Woodpecker

Order Coccygiformes

- 2 Chinese Koels
- 2 Indian Coucals
- I Great-billed Touraco

Order Apodiformes

- 4 Blue-breasted Humming Birds
- 3 White-throated Sapphire
 - Humming Birds
 - I Pucheran's Emerald Humming
- Bird 1 Red-throated Sapphire Hum-
- ming Bird 4 Pied Jacobin Humming Birds
- 2 Ruby-throated Humming Birds

- 4 Waterton's Wood Nymph Humming Birds
- I Black-tailed Emerald Humming Bird
- White-bellied Emerald Humming Bird
- 4 Racquet-tail Humming Birds
- 6 Ruby-and-Topaz Humming Birds
- I Black-throated Mango Humming Bird
- 1 Frilled Coquette

Order Coraciiformes

1 Ground Hornbill

Order Psittaciformes

- 2 Swainson's × Red-collared Lorikeets
- 2 Blue-and-Yellow Macaws
- 1 Green-winged Macaw
- 1 Finsch's Conure
- 12 Guiana Parrotlets
- 1 Blue-fronted Parrot
- 1 Yellow-fronted Parrot
- 1 Red-crowned Parrot
- I Green-cheeked Parrot
- 2 Black-headed Caiques
- 1 Aubry's Parrot
- 2 Grey Parrots
- 1 Ring-necked Parrakeet
- 1 Rosy-headed Parrakeet
- 3 Green-winged King Parrakeets
- 11 Red-faced Lovebirds 16 Fischer's Lovebirds
- 8 Masked Lovebirds (Blue bred)
- 7 Masked Lovebirds (Blue variety)
- 9 Blue-crowned Hanging Parrakeets
- 1 Red-rumped Parrakeet
- 101 Budgerigars
 - Greater Sulphur-crested
 Cockatoo
 - 1 Citron-crested Cockatoo
 - 8 Cockatiels

Order Strigiformes

- 1 West African Wood Owl
- 2 Bare-footed Scops Owls

Order Accipitriformes

- 1 Hooded Vulture
- 1 Buzzard
- 2 Black-crested Cuckoo-Falcons
- 2 Kestrels

Order Cathartiformes

- 2 Great Condors
- 2 South American Black Vultures

Order Anseriformes

- 2 Mute Swans
- 2 Black Swans
- 1 Muscovy Duck
- 1 Comb Duck
- 3 Mandarin Ducks
- 3 Cereopsis Geese4 Upland Geese
- 2 White-faced Tree Ducks
- 6 Egyptian Geese
- 1 Common Teal
- 1 Velvet Scoter

Order Ardeiformes

- 2 Little Egrets
- 2 Tricolor Herons
- 2 African Cattle Egrets
- 2 Egrets (unidentified)
- 1 African Woolly-necked Stork
- 7 White Storks

Order Charadriiformes

- 4 Great Bustards
- 8 Ruffs or Reeves
- 1 Lapwing
- Black-headed Plover

Order Lariformes

- 6 Antarctic Skuas
- 1 Silver Gull
- 4 Great Black-backed Gulls
- 2 Lesser Black-backed Gulls
- 3 Herring Gulls

Order Sphenisciformes

- 2 King Penguins
- 12 Rock-hopper Penguins
- 1 Black-footed Penguin

Order Podicipidiformes

I Red-necked Grebe

Order Ralliformes

- 2 Venezuelan Wood Rails
- 1 Black Crake
- 12 Gough Island Coots
- 2 Water Cocks
- I Green-backed × Grey-headed Gallinule

Order Columbiformes

- 1 Sierra Leone Green Pigeon
- 1 Wallace's Fruit Pigeon
- 4 Ceylonese Necklace Doves
- 2 Diamond Ground Doves
- 3 Crested Pigeons
- 2 Chiriqui Ground Doves
- 4 Blood-breasted Pigeons

Order Pterocletiformes

- 3 Eastern Pin-tailed Sand Grouse
- Black-bellied Sand Grouse

Order Galliformes

- 4 Persian Chukors
- 1 Red-crested Wood Quail

- 1 Bornean Fire-backed Pheasant
- 4 Black Kalij Pheasants
- 3 Chinese Silver Pheasants
- 2 Swinhoe's Pheasants
- 1 Elliot's Pheasant
- 1 Mikado Pheasant
- r Reeves's Pheasant
- 2 Scintillating Copper Pheasants
- 5 Golden Pheasants
- 10 Lady Amherst's Pheasants
- 3 Jabouille's Jungle Fowl
- 1 Sonnerat's Jungle Fowl
- 3 Common Peafowl
- 4 Common Peafowl (White variety)
- 1 Black-winged Peafowl

Reptiles

Order Testudinata

- 3 South American Ornate Terrapins
- 2 Spanish Terrapins
- 2 European Pond Tortoises
- 1 Rough Terrapin
- 1 Bell's Hinged Tortoise
- 17 Greek Tortoises
- 6 South Albemarle Tortoises
- 2 Brazilian Tortoises

Order Loricata

- 1 Nile Crocodile
- 5 Mississippi Alligators
- 2 Chinese Alligators
- 1 Broad-snouted Cayman

Order Rhynchocephalia

1 Tuatara

Order Sauria

- 1 Petrie's Gecko
- 1 Taylor's Gecko
- 8 Bridled House Geckoes
- 1 Great House Gecko
- 2 Wahlberg's Geckoes
- 3 Bibron's Clawless Geckoes
- 1 Argus Gecko
- 2 Carolina Anolis Lizards
- I Harlan's Horned Lizard
- 3 Common Flying Lizards
- I East Indian Chameleon Lizard
- 1 Egyptian Changeable Lizard
- 10 Margouillat Lizards

- 3 Black-necked Agama Lizards
- 2 Bearded Lizards
- 3 Bell's Dabb Lizards
- 11 Flap-necked Chameleons
 - 7 Monk Chameleons
- 2 Two-banded Chameleons
- I Flat-headed Short-tailed Chameleon
- 1 Southern Blue-tongued Skink
- 2 African Blue-tailed Skinks
- 2 Red-spotted Lizards
- 4 Great Tegus
- 2 Lizards (Pholidobolus montium)
- 2 Two-banded Monitors
- 1 Nile Monitor
- 1 Lace Monitor
- 2 Legless Lizards
- 2 Armoured Zonures
- 1 Lizard (Platysaurus guttatus)

Order Serpentes

- 5 African Pythons
- 2 Indian Pythons
- 1 Royal Python
- I Cooke's Tree Boa
- 4 Anacondas
- 2 Boa Constrictors
- 1 John's Sand Boa
- I Snake (Thalerophis richardi marginatus)
- I West African House Snake
- 2 Indian Wolf Snakes
- 1 Corais Snake
- 1 Lindheimer's Chicken Snake
- 2 American Black Snakes
- 1 Dark Green Snake

I Painted Tree Snake

I Guenther's Bronze-backed Snake

1 Peters's Green Snake

1 Merrem's Boipeva Snake

3 Hog-nosed Snakes

1 Merrem's Water Snake

2 King Snakes

4 Say's King Snakes

2 Milk Snakes

2 Socotran Snakes

I Cenchoa Snake

1 Herald Snake

1 Reinhardt's Tree Snake

I Cape Many-spotted Snake

2 Emerald Tree Snakes

I Long-nosed Tree Snake

4 Boomslangs

i Ornate Tree Snake

2 Storm's Water Cobras

3 Egyptian Cobras

I Indian Cobra

I Black Mamba

7 Puff Adders

1 Cape Puff Adder

2 Horned Puff Adders

3 Worthington's Vipers

I Horned Cerastes Viper

1 Green Pit Viper

3 Crossed Vipers

I Two-lined Pit Viper

1 Western Diamond-back

Rattlesnake

2 South Pacific Rattlesnakes

1 Timber Rattlesnake

1 South-western Speckled

Rattlesnake

1 Sidewinder

Amphibians

Order Apoda 20 Yellow Coecilians

Order Gradientia

1 Giant Salamander

2 Pleurodele Newts

6 Californian Slender Salamanders

2 Pacific Slender Salamanders

2 Pacific Black Salamanders

Order Salientia

4 Midwife Toads

4 Syrian Spade-foot Frogs

I Green Toad

4 Common African Toads

2 Common Asiatic Toads

3 South American Yellow Toads

I Giant Toad

12 Corroboree Frogs

31 Madiana Tree Frogs

2 Frogs (Leptodactylus sp.)

4 Marsh Frogs

2 Dumeril's Frogs

I Lake Galam Frog

3 Braided Tree Frogs

18 Golden Variegated Tree Frogs

12 Tree Frogs (Hyperolius sp.)

1 Pig Toad

1 Speckled Pig Toad

APPENDIX VI.

LIST OF DONORS OF ANIMALS TO WHIPSNADE PARK

Babonau, I., 4 Budgerigars Boswell, Professor Charles, 2 Great Bustards

Coppin, Miss, 25 Budgerigars Corporation of London, The, 4 Fallow Deer

Davies, T. T., 1 Blue-fronted Parrot

Faulkner, Miss M. C., 20 Canaries (Red Factor)
Forestry Commission, The, 1 Gannet
Freeman, R. E., 2 Bengalee Finches, 1 Canary (Norwich), 13 Budgerigars

Johore, H. H. The Sultan of, 2 Tigers

National Parks Service, Ottawa, 2 Big-horned Sheep

Philadelphia, The Zoological Society of, 5 Prairie Marmots

Tanner, Mrs. W., 1 Dexter Bull

APPENDIX VII.

OF ANIMALS BORN AT WHIPSNADE PARK ets following an item indicates the number which have died)

LIST OF ANIMALS RECEIVED AT WHIPSNADE PARK (Presented, Purchased, Received in Exchange, Deposited and Born in the Park)

Mammals

Order Primates

I Lar Gibbon

4 Rhesus Monkeys

Order Carnivora

2 Tigers

3 Striped Hyaenas

24 Husky Dogs

I Timber Wolf

2 Cape Hunting Dogs

3 Polar Bears

6 Brown Bears

Order Rodentia

2 Malabar Giant Squirrels

5 Prairie Marmots

2 Crested Porcupines

2 Central American Agoutis

4 Patagonian Cavies

Order Perissodactyla

7 Shetland Ponies

2 cross-bred Ponies

1 Mongolian Wild Horse

I East African Zebra

1 Pygmy Donkey

1 Brazilian Tapir

Order Artiodactyla

I Chartley Calf

1 Dexter Bull

Order Passeriformes

Order Coraciiformes

Order Psittaciformes

1 Severe Macaw

3 Yellow-headed Conures

I Blue-fronted Parrot

1 Racquet-tailed Parrot

2 Bengalee Finches

I Canary (Norwich)

2 Ground Hornbills

20 Canaries (Red Factor)

4 Ankole Cattle

1 Yak

8 American Bison

2 Big-horned Sheep

7 Mouflon

2 Thomson's Gazelles

3 East African Elands

3 Nylghaie

5 Muntjac

10 Fallow Deer

2 Spotted Deer

I Swamp Deer

2 Sika Deer

13 Formosan Deer

10 Red Deer

1 Wapiti Deer

5 Père David's Deer

1 Elk

25 Chinese Water Deer

1 Bactrian Camel

8 Llamas

2 Collared Peccaries

1 Hippopotamus

1 Pygmy Hippopotamus

Order Marsupialia

1 Wallaroo

37 Bennett's Wallabies

Birds

Order Phoenicopteriformes

21 Chilian Flamingoes

Order Anseriformes

2 Whooper Swans

9 Grey Lag Geese

1 Bar-headed Goose

5 Snow Geese

4 Greater Snow Geese

2 Emperor Geese

8 Canada Geese

4 Upland Geese

Order Ardeiformes

2 Purple Herons

1 Marabou Stork

Order Charadriiformes

2 Great Bustards

Order Sphenisciformes

4 King Penguins

Order Sagittariiformes

42 Budgerigars

3 Cockatiels

2 Secretary Birds

Order Pelecaniformes

1 Gannet

2 White Pelicans

- 2 Black-footed Penguins
- 2 Humboldt's Penguins

Order Galliformes 3 Black-breasted Kalij Pheasants

- 5 Swinhoe's Pheasants6 Golden Pheasants
- 8 Common Peafowl
- 2 Common Peafowl (White variety)

REPORT OF THE AUDITORS OF THE ACCOUNTS

OF THE

ZOOLOGICAL SOCIETY

OF LONDON

To the Council and Fellows,

The Zoological Society of London,

Regent's Park, N.W.1.

In accordance with Chapter V of the Bye-laws, we hereby certify that we have audited the Accounts of the Society for the year ended 31st December, 1956, as shown by our certificate attached to the accompanying Accounts. We report to the Society that at that date the total Assets included in the Balance Sheet amounted to £1,202,324, and the Liabilities, Pensions Fund and Depreciation of Investments Reserve Fund to £468,199, showing a surplus of Assets over Liabilities amounting to £734,125, subject to the estimated values of some of the Assets.

(Signed) W. B. KEEN & Co., Chartered Accountants.
