

Took. Soc. Lond

11 Hanover Square

11th Jan. 1845

Sir

I have the honor to enclose
herewith a proof of your paper
on the Birds of the Nepales district
of India.

You will observe that some
parts of the Manuscript have been
omitted - the paper was referred
to the publication Committee and
they determined on publishing
only those parts which had not
been already printed by Mr
Blyth.

If you require to have the manu-
script have the goodness to drop
me a line and I will forward it
by return of post. I am
Yours faithfully
James G. Montgomerie

My Dear Sir

As we are sending some
of the copies of the catalogue I take
the opportunity of sending you
some letters & which have been
wanting here

I hope the catalogue will
be satisfactory to you. There are
some points in which we may
differ but such differences elicit
truth. whilst easy compliance
only perpetuate error

I have just had a note from
Mr Jones who gave me an

account of you I have looked over his
sketches he has no mammalia and
only three kinds of birds not in your
collection. Myth appear to have
have treated him as he did you
as he papered Calcutta

Your skeletons has caused us to
go on collecting others. and now
we have three times as many as
they have in the College of Surgeons.
and nearly as many as they have
in Paris except in fishes we are
forming a catalogue of them and your
specimens will there appear again
as they will in my new catalogue
of mammalia & birds. now in
the press

you will see by the Catalogue what
are the desiderata of Sherrin & Bones
but. I shall be very glad to receive good
fresh skins of each species and they
shall be duly stuffed & labelled for
London ~~just~~ ~~as~~ ~~soon~~ ~~as~~ ~~possible~~
new ones requested & desirable
I will send you a bit of the drawing
but we have not so many hands here
as you have in India and these
things take time
I should much like to have the Wild
Nore & sp. what is the Kiang!
I shall have a fine North on Antelope
prize shortly
Ever yours truly
J. E. Gray
