

Berkeley - July 6. 1849

Dear Mr.

I am crazed with letters
waiting but have got one
so long since for the English
mail. to Bahine, Gels, Darwin,
Wheatstone - the Sunday &
It has thrown me back with
my plant an arrangement; but
is well over - a worn accident
has occasioned the total derangement
of the little Rev. the standard
it is all a delight - & we have
now no standard to work
upon except the big trap
appena at Muller. I am
helping Muller on this new
difficulty - & I cannot take for
the amount of work in. certainly

I wrote a blow - wh to Scott
Thurman for the breakfast of
that they sent wh & they offer
one another at cert price
which I would. For I would
have a standard to work
bents upon -

Your letter has just
come Thurman's thanks I send.
you smile, accidentally I
discovered a note to the Thurman
which I post in chance of
our having forgotten it.

Thanks for Miss C. my
nice letter - I send her
brothers -

The Thurman at the academy.

I send you Richard letter
with my love as it too

late to find the Barrow

My many Thanks for your
notice of the letters & attention
to them in respect of the Review.

I hope to get my work over
in another week but still we
have not had one really fine
day - & but a partially so -
think fog & ground always
swollen - It looks like
change now but there is
nothing to be seen.

I am very anxious to get down
with you & Campbell's children
This is a weary weary place
though smaller & I get a
familiarity - I am very sorry
more at present.

See you affectionately

Wm. W. W. W.

Many thanks for your kindness
about Thurman - but you have
enough with you we will have
pork & meals if he comes & we
think proper. but he will
have as many blankets as I have
& our house will not hold a collection
He is our constant friend & we
contribute some for him & I have
further liked the uniform
of the Marine / Falcasin's uniform
to send you a copy of the
to him from the people.
